

1. Some men worry about knowing the right words to talk about sex. Do you feel as if you have the right words and vocabulary to describe sexuality issues?
 - Are there any words, terms, or definitions you would like to learn?
2. What type of sex education have you ever had?
 - Would you like to have more knowledge of sexuality as it involves physiology, psychology, social norms and values or any other topic?
3. Do you have information about how sexuality changes at different life stages (eg, childhood, young adulthood, midlife, old age)?
 - How do you feel about adapting to sexual changes that come with aging?
4. How have social ideas and requirements about "masculinity" and "manhood" affected you and your sexual life?
5. Is there any conflict or disagreement between the messages you learned from the social/cultural group you grew up in and the social/cultural group you live in now?
6. What kinds of ideas about sexuality did you receive from religion in your past or present faith community?
7. Do you feel comfortable with how your body looks? Do you see yourself as sexually attractive?
8. Do you worry in any way about being punished for your sexual fantasies or activities?
9. Do you feel that there are conflicts between your family and work obligations and having a satisfactory sexual life?
10. Describe the sexual and intimate relationships you are currently involved with (long-term and casual).
11. How do you feel about your sexual partner(s)?
 - Do you like each other?
 - Do you feel intimate?
 - How do you communicate about sex?
12. In your primary sexual relationship is there a:
 - Similar level of desire?
 - Similar preferences for various sexual activities?
 - Ability to communicate about initiating, pacing, or shaping sexual activities?
 - History of violence or coercion?

- Clear agreement about monogamy or non-monogamy?
13. Are you comfortable with nudity and physical touch?
14. Do you experience any anxiety or difficulty with sex due to any of the following?
- Past physical or emotional abuse
 - Intimacy problems with your partner
 - Rejection or fear of rejection
 - Jealousy
15. Do you or your partner have disagreements over any of the following issues that affect your sexual life?
- Money
 - Schedules
 - Children/childcare
 - Relatives
16. Do you have any problems with sex as a result of your partner's health status, attitudes, sexual preferences or past sexual experiences?
17. Would you describe your sexual orientation/identity as:
- Heterosexual?
 - Gay?
 - Bisexual?
 - Not sure?
18. Do you have any problems with masturbation?
- How often do you masturbate on a weekly basis?
 - Do you always have an orgasm when you want to?
 - Do you use masturbation to relieve tension? Does this occur at night before going to sleep or at work during the day or at other times?
 - Do you masturbate to have an orgasm as quickly as possible or do you take your time?
 - Do you use any fantasies or visual materials when you masturbate?
19. How do you feel about sexual activities:
- Do you have a generally positive or negative attitude?
 - Are you afraid or disgusted in any way?
 - Do you try to avoid sex?
 - Does sex make you feel guilty or ashamed in any way?
 - Do you feel entitled to have a lot of physical pleasure?
 - Do you feel burdened by having to give another person physical pleasure?
 - What aspect of sex gives you the most pleasure?

20. Do you use alcohol or recreational drugs with sexual activities? Is this because they help you feel better or perform better?

21. Are you satisfied with your level of interest in sex? Your physical arousal including erection? Your orgasm and ejaculation? Give me as much detail as you can about aspects of sex you are dissatisfied about.

22. Do you experience any kind of pain or lack of physical or emotional response with sexual activity?

- Describe when and how this pain or lack of response occurs
- Are there any sexual experiences when you don't have this pain or lack of response?

23. Is your pain or lack of response associated with

- Anxiety or tension?
- A physical problem or health condition?
- Sexually transmitted infection
- Side effects of drugs, medications, or medical treatments
- What do you think are the causes of the pain or lack of response?
